REASON FOR ALLOWANCE

6. The following is an examiner's statement of reason for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations, a method for providing versioning support, the method comprising: providing a versioning-aware overload

resolution method to locate a second method invoked by a first method invocation, wherein said versioning-aware overload resolution method includes: determining a type indicated by the first method invocation; checking up an inheritance chain until at least one applicable, accessible, non-override method declaration is found; and performing overload resolution on a set of applicable, accessible, non-override methods declared for the type, as recited in the independent claims 1, 23, and 42.

Conclusion

7. The prior art made or record and not relied upon is considered pertinent to applicant's disclosure.
